Candoo How To Use FaceTime on your Mac

To print this guide, go to "File" and click "Print".

Step 1: Start FaceTime

Tap the FaceTime icon to launch the FaceTime app.

## Step 2: Choose who you want to call

You will see yourself on video (or, in this case, Annie!). If you've used Facetime before, you will see names of previous callers. You can just click on the name. Or, you can enter a new name, email or phone number.

Step 3: Start Video Call

Click on either audio or video to start the call.

If you need help setting up and using FaceTime, call us at 646-758-6606 or email support@candootech.com
